Administration of First Aid
Quality area 2: Children's health and safety.

Administration of First Aid

Periwinkle Preschool is committed to providing a safe and healthy environment for children and families. Periwinkle educators and staff are aware of their duty of care to children, families, staff and visitors in providing appropriate First Aid.

The First Aid Policy, strategies and practices are designed to support educators to:

- Ensure that ill or injured persons are stabilised and comforted until medical help intervenes
- Monitor ill or injured persons in the recovery stage
- Apply further first aid strategies if the condition does not improve
- Ensure that the environment is safe and that other persons are not in danger of becoming ill or injured.

Our goals in relation to First Aid:

- practice effective risk management to minimise injury and illness at preschool
- ensure all educators, including casual staff, hold a First Aid qualification
- administer First Aid in accordance with guidelines and recommended practices of a first aid qualification to all children, staff, families and visitors who are involved in accidents and incidents whilst at the preschool
- all incidents will be documented and stored according to regulatory requirements.

Strategies

In accordance with the National Regulations 136(1).

The following persons are in attendance at any place where children are being educated and cared for by the service, and immediately available in an emergency, **at all times** that children are being educated and cared for by the service:

(a) at least one staff member or one nominated supervisor of the service who holds a current approved first aid qualification;

Administration of First Aid

Quality area 2: Children's health and safety.

(b) at least one staff member or one nominated supervisor of the service who has undertaken current approved anaphylaxis management training;

(c) at least one staff member or one nominated supervisor of the service who has undertaken current approved emergency asthma management training.

At Periwinkle Preschool the director will be responsible for Professional development for staff and educators.

- All educators will be supported to obtain and maintain current recognised First Aid qualifications as well as relevant and necessary training including current approved anaphylaxis management training (from 1st January, 2013). Employee induction will include clear articulation of the First Aid policy.

Assure quality of First Aid administered

- Administration of First Aid will be done in accordance with first aid training and undertaken by a qualified First Aider. Where First Aid is administered to a child, their parent/guardian will be notified of the nature of the incident/ accident.

Effective record-keeping

- First Aid courses and refresher first aid and CPR training will be scheduled and maintained in a staff register. Staff and educators will collaborate to develop, implement and record risk assessment and management plans. First aid guides and publications will be accessible to staff at all times to assist understanding and administration of First Aid. An educator or staff member who administers First Aid is to complete an incident/illness/injury/trauma record and pass to the responsible person for verification and signing by parent or guardian.

First Aid Action Response

Generally first aid is provided in response to unpredictable illness or injury. Education and childcare workers have an obligation to ensure parents and guardians are informed about first aid provided to their children.

The Need for an Ambulance

Periwinkle PRESCHOOL

for Rudolf Steiner
early childhood education

Administration of First Aid Quality area 2: Children's health and safety.

An ambulance will be called when the following instances (but not limited to) occur to a person or child at the service:

- unconsciousness or an altered conscious state;
- experiencing difficulty breathing;
- showing signs of shock;
- experiencing severe bleeding, or who is vomiting blood or passing blood;
- slurred speech;
- injuries to the head, neck or back; and
- possible broken bones.

Infection and Prevention Control

Adequate infection and prevention control must be practiced at all times when administering first aid or cleaning up blood or body fluids.

The following infection control procedures must always be adhered to:

- cover cuts and abrasions with water proof occlusive dressing to avoid contamination of cuts/abrasions with another person's blood and/or body fluids;
- wear protective gloves when in contact with body fluids, non-intact skin and mucous membranes;
- wear a mask and eye protection where there is a risk of splashing blood or other body fluids;
- remove any broken glass or sharp material with forceps or tongs and place in container; and
- wash hands thoroughly after direct contact with injured person or blood/body fluids with warm soapy water, rinse, dry and sanitise hands using an alcohol-based rub or gel.

Poisons Information Centre

The Poisons Information Centre telephone number 131 126 is displayed:

- Next to every telephone in the service.
- Where dangerous products are stored.

Roles and Responsibilities
